#### **Education in ancient Greece - Wikipedia**

There were two forms of education in ancient Greece: formal and informal. Formal education was attained through attendance to a public school or was provided by a hired tutor. Informal education was provided by an unpaid teacher, and occurred in a non-public setting. Education was an essential component of a person's identity.

Common subjects included in ancient Egyptian education were reading, writing, mathematics, as well as religious instruction and morals. Education was held in high regard and it was common for people with proper means to send their children to schools after a certain age.

**Ancient Egyptian Education | Education in Ancient Egypt**

Philosophy of Education is a label applied to the study of the purpose, process, nature and ideals of education. It can be considered a branch of both philosophy and education. Education can be defined as the teaching and learning of specific skills, and the imparting of knowledge, judgment and wisdom, and is something broader than the societal institution of education we often speak of.
