jewelry just for you or shape incredible pieces to share with the world, *Bead Jewelry Making for Beginners* makes it easy. Eleanor Wiley and Maggie Oman Shannon have taken an ancient practice and made it new. *A String and a Prayer* recounts the history and symbolism of prayer beads, teaches basic techniques for stringing beads and a host of other objects into prayer beads, and offers a variety of prayers and rituals to use those beads on a daily basis. Beads have appeared throughout history. Prayer beads are used in the spiritual practices of cultures as diverse as the African Masai, Native Americans, Greek and Russian Orthodoxy, as well as the religious rituals of Islam, Hinduism, Christianity, and Buddhism. But prayer is highly per-

sonal. By infusing prayer beads with personal associations, we can keep our spirituality fresh. The beads are a device to help build and rebuild meaningful ritual in our lives. With myriad ideas about what makes objects sacred and where to find sacred objects -- from the personal, perhaps beads from a grandmother's broken rosary, to the unusual, maybe seashells from far away found in a thrift store -- *A String and a Prayer* offers many suggestions for different ways that beads can be made and used, exploring the creative roles they can play in our relationships, ceremonies, and rituals. "You are the expert, trust yourself. Let the instructions be a guide to your own creativity," write the authors.

Dazzled by the beautiful beadwork of native peoples near and far? This new book by Mel makes learning to create beautiful necklaces, chokers, bracelets, belts, pouches and headbands a snap. The rich mix of culturally diverse seed bead patterns found in this book will satisfy the young beginner, the advanced worker and the holiday gift maker. The double bonus? The projects result in elegant, beautiful and surprisingly fashionable pieces of jewelry anybody would be proud to wear on any occasion. From Zulus to Guaymis, from Guatemala to Egypt, here are large, graphic illustrations of the threading patterns for a wide range of beautiful seed bead jewelry,

from simple Y necklaces to elaborate Romanian collars; several original designs are provided as well. This book is a must for crafters working with seed beads as it provides many useful design concepts in its patterns for necklaces, chokers, bracelets, earrings, belts, pouches and headbands. The Methods and Materials section is comprehensive and full of useful hints for working with seed beads in general, from how to set up a workspace and lay out a design, to what to do when a flaw is found in a finished piece. Clear concise instructions alongside the diagrams ensure a good understanding of each project. The book starts out with two simple necklaces, then zooms into space with starry holiday patterns for 10 minute earrings, a necklace and bracelet. Then it's on to snowflake patterns that show how to incorporate medallions into earrings, bracelets and necklaces. Next are simple chain link patterns that turn into beautiful flower chokers. Native American patterns for flower and leaf necklaces, as well as friendship bracelets and a flowing tippie necklace, follow. After a braided headband, simple daisy chain patterns are presented, along with directions on turning them into wide

flowery band bracelets and a daisy purse. Elaborate patterns for a very regal necklace and colorful Romanian collars follow. The last patterns of the book show how to make a wide colorful Guaymi collar, a Zulu belt, a Princess necklace that will enchant little and big girls alike, netted triangle necklaces, and a Moorish necklace of netted diamonds. Six pages of color photographs add to the beauty of this 42 page book. A cultural cornucopia of jewelry to be truly enjoyed. A great new release no one will want to miss!

French Beading is a bead-and-wire art from the Renaissance used primarily to make flowers. Learn the art from designer Lauren Harpster in this new publication made specifically for beginners who've never touched beads or wire, but is also an excellent resource for experienced French Beading artists. This title is a hard copy of my Learn French Beading: Beginner Course video series on YouTube. Instructions for accessing the videos are included inside the book (Videos will be available after Feb 29th). *Part 1 is the "Getting Started" guide. Before making French Beaded Flowers it is very important to understand the materials needed to make them. This section explores tools, beads, wire, and other supplies in detail, though not all of them will be necessary for this course. *Part 2 is the "Technique Guide", which contains six lessons that teach the techniques included in this course - Continuous Loops, Continuous Crossover Loops, Continuous Wraparound Loops, Fringe, Basic Frame, and Lacing. These lessons are im-

portant for learning French Beading terms and abbreviations, and how to read French Beading patterns. I like to teach techniques separately from flower patterns because there's so much more I can teach you about an individual technique than what I can cover in a single flower pattern. There are also some variations of the techniques that are not used in the practice patterns, but are included for education and reference. This section is also intended to be a one-stop technique reference so you can quickly look up specific techniques while working with other flower patterns. Each lesson has a video demonstration so you can see the techniques in action, but they also contain picture and written instructions for the techniques. *Part 3 contains four wildflower patterns that I've developed specifically for helping you practice the base techniques learned in Part 2 - Lavender, Dame's Rocket, Blue Virgin's Bower, and Black-Eyed Susan. The patterns have been written with beginners in mind and contain a high level of detail, so they're a great way to dip your toes into the art. This section is important for seeing practical application of the techniques, reinforcing the ability to read patterns, and

learning how to assemble and shape a variety of flowers. I have also made video demonstrations of each of the flowers. While I demonstrate flower parts fully in the videos, I only show techniques as they are used in that particular flower. So you can start with Part 3 if you use the videos, but I do recommend that you go back through the lessons in Part 2. *Part 4 will demonstrate how to arrange the flowers from Part 3 to make a wildflower arrangement. I am not a professional florist, but I'd like to share what I've learned about arranging beaded flowers. This section is included only in the book version of the course.
