Writing research papers does not come naturally to most of us. The typical research paper is a highly codified rhetorical form [1,2].Knowledge of the rules—some explicit, others implied—goes a long way toward writing a paper that will get accepted in a peer-reviewed journal. Furthermore, herbal remedies support inner healing, or physis, so differ from Western drugs, which tend to oppose it. They also contain a wide range of active ingredients, which allow for a wide spectrum in pharmacotherapy effect. Consequently, Tibb pharmacotherapy is better tolerated, and less prone to adverse drug reactions.
